

## 3Shape Parameters for Dental Models built with EnvisionTEC® 3D Printers

The **3Shape Dental Designer** software has been successfully tested by EnvisionTEC<sup>®</sup>.

## **Settings for Dental Models with Dies**

EnvisionTEC® recommends the following settings for the dental model design. Dental models were designed in the **3Shape Dental Designer** and built on a **3Dent™** machine using the **E-Denstone** material. The **3Dent™** is EnvisionTEC®'s machine recommended for model production and E-Denstone is EnvisionTEC®'s material designed for dental models and dies. Below are listed the **3Shape Dental Designer** settings recommended for this machine/material configuration.
